PROJECTS

SocialSway — *(Web Application)*

SocialSway is a web application that has been developed using the MERN (MongoDB, Express.js, React.js, Node.js) stack. It is fully responsive and designed to provide users with a seamless social media experience. With SocialSway, users can easily connect and share photos in a dynamic and user-friendly environment.

- Developed using Vite React.
- Employed Authentication using JSON Web Token (JWT), bcrypt.js.
- Built with a responsive design approach, ensuring seamless usability across devices of all sizes.

SKILLS

React.js, Next.js, Node.js, Tailwind CSS, Bootstrap, JavaScript, TypeScript
